

Organise your kitchen!

Keep pepper, salt or other hard spices close at hand as you prepare your meals. The convenient large opening makes it easy to fill the grinders. With the adjustable ceramic grinding mechanism, you can choose with the flick of the wrist whether you want your spices to be finely or coarsely ground. Similar with the shaker, you can control the quality of seasoning by rotating the lid between different modes.

Compatible with most drawer dividers on the market, our grinders are the perfect way to organise your kitchen! The reusability of the set is key in a more sustainable world where reusable products are more convenient than disposable pepper and salt sets from the supermarket. Made with recycled plastics, this set is an absolute must for your kitchen!

2-PC GRINDER AND SHAKER SET

3950403

5,30 x 5,30 x 15,20 cm
0,16 L
