

Grate minds think alike!

Spices, fruit, veggies, chocolate, ... whatever you want to grate, slice or shred, it's easy with the Leo graters. The different blades of the paddle graters allow you to choose the right grater for every type of food while the box grater conveniently combines 4 different blades so you can grate, slice and shred a wide variety of ingredients with a single grater.

The ultra-sharp graters all have an etched blade for optimal performance, ensuring you can grate or shred faster and more efficiently to give your final dish that professional look. Plus, each grater has an ergonomic soft-touch handle for a safe and comfortable grip.

We have made grating easier for you with an anti-skid base for extra stability and even integrated bowl notches, so that you can choose whether to grate on a plate or in a bowl.
